TASC Ringwood Call Notes_3.1.17.pdf

Hi All,

Kirby Webster, from SKEO, sent me the attached notes which I am forwarding on to you. They recap the information from our March 1 call related to Kirby's explanation of the TASC program and her request to hear your concerns. I'm concerned that there is some confusion about the role TASC can play in providing a technical advisor and I will be reaching out to you shortly to discuss further.

Thanks

Pat Seppi
